FROM THE VICE CHANCELLOR'S DESK

► Dr. Dharmaraj Adat

The present educational development calls for an educational system that prepares the students for a global future – a prospect that urge for critical intellectual, creativity, and resourcefulness. This credence is what fuels the experience that a higher educational institution, especially a university, should offer the students. The Sree Sankaracharya University of Sanskrit, Kalady is an agile institution that responds to the needs of the students within a relentlessly changing landscape of international education.

Sanskrit, mostly misrepresented as the language of poets and play writers, has made its way into the global lexicon. The study of Sanskrit is more like an interpretation of culture and society, the history of trade and economics, and much more. At present, Sanskrit is being researched and studied with a great degree of rigour at universities in Germany, UK, and US. The acceptance of traditional Indian languages like Sanskrit and vice-versa have undoubtedly changed the global education scenario worldwide.

Networked academic modernizations like Massive Open Online Courses (MOOCs) are offering unconventional pathways to international students. This leads to a more sustainable alternative for gaining academic credits. Sree Sankaracharya University of Sanskrit is on its final stage of implementing numerous short-term as well as long term online programmes at par with global educational developments to target international students.

The representatives from the Department of Social Work handing over the report of social audit to the Head Mistress of the school.

Outcome Based Teaching, Learning and Evaluation implemented

The first University to implement OBTLE method at PG level in the state

Sree Sankaracharya University of Sanskrit is the first University to implement the Outcome Based Teaching, Learning and Evaluation (OBTLE) system at PG level in Kerala. The Vice Chancellors' meeting convened by the Higher Education Department, Government of Kerala and the Kerala State Higher Education Council have decided to implement OBTLE in all Universities in Kerala as part of the quality enhancement programmes of Higher Education. OBTLE was originally conceived as a part of Choice Based Course Credit System by the UGC. As quoted from KSHCE 2018, in OBTLE, "courses are well designed instruction packages in specific knowledge fields, with preconceived results that go into the making of the outcome of the academic programme. They are scientifically structured with insights of continuity, sequence, and integration, appropriate for effective learning". The implementation of OBTLE at Sree Sankaracharya University of Sanskrit is initiated by the Internal Quality Assurance Cell (IQAC) in October 2018. The split vacation system followed by the varsity under the credit-based semester system helped to accomplish the procedures to implement OBTLE for the academic year 2019-20. Series of workshops were conducted in the University in association with KSHCE in the curriculum framework for OBTLE. The first level of 3 days' workshop was in 2018 November 12-14 was conducted for Deans of Faculties, Heads of Department and one member from each Board of Studies. Prof. N J Rao and Prof. Rajanikanth of IISc, Bengaluru led the workshop.

Two committees were formed at University level for the effective implementation of the OBTLE. A Core committee with 8 expert members to help the Departments and a Monitoring Committee, chaired by Pro-Vice-Chancellor, along with one member of Syndicate, IQAC Director and NAAC Coordinator. The second level of workshop conducted in 2018 December, for all faculty members of the University, which was led by the core committee members of OBTLE. The third level of workshops are conducted by the Departments at disciplinary level with experts from outside the University. The Board of Studies meetings were scheduled in March 2019 to finalise the syllabus of various PG programmes.

The varsity then decided to implement OBTLE at different phases, as the complete implementation require a total revamping of examination structure and related administration. At the first phase, the academic departments of the University revised their syllabus based on pre conceived learning outcomes at three levels. Course level- Course Outcomes (COs), Programme Level – Programme Specific Outcomes (PSOs), University Level – Programme Outcomes (POs). During the first phase, each department identified outcomes of their courses and programmes and tagged them to Programme Specific Outcomes. The second phase of attainment and evaluation will be implemented only in the next academic year.

Based on the workshops and further discussions at different level of the academic and administrative bodies of the University, it has been accepted four Programme Outcomes (POs) for all of the PG Programmes.

The Programme Outcomes (POs) for PG Programmes are; critical thinking to take informed actions after identifying the assumptions that frame thinking and actions, in students, checking the degree to which these assumptions are accurate and valid, and looking at ideas and decisions (intellectual, organisational, and personal) from different perspectives; and Communication : listen, read, comprehend, speak and write clearly and effectively in person and through electronic media in English/regional language/languages of the discipline and exhibit sound domain knowledge including academic concepts and terminologies; self-directed and life-long learning: engage in independent and lifelong learning in broad context of socio-technological changes. ethics: understand different value systems including one's own, as also the moral dimensions of actions, and accept responsibility for it. The OBTLE scheme, implemented at post graduate level, will be accomplished for the under graduate programmes by 2020-21 academic year.

Varsity on its mission to preserve the in-scripted treasure

▶ Mani Mambilli handovering the palm leaf manuscripts to Vice-Chancellor Dr. Dharmaraj Adat

Palm leaf manuscripts are the ancient treasure for humankind, a treasure that take us to the glorious period of preserved civilisation and knowledge. Mis-handling and improper management caused destruction of innumerable valuable manuscripts. The Varsity is now on a mission to preserve palm leaf manuscripts realising its obligation towards the society as a University for Sanskrit. A lot of valuable and rare manuscripts were lost in the flood that wreaked huge devastation in the state during the month of August 2018. As one of the post flood initiative, varsity is in act to collect and preserves these rare manuscripts. Though it was hard to recuperate the manuscripts which were completely or partly damaged in the flood, university managed to procure around 28 manuscripts from the flood damaged Mambilli illam through this project. Research Scholars and experts of the varsity are on the process of digitalizing the inscriptions on the palm leaf manuscripts those which cannot be restored. The project to recover and preserve palm leaf manuscripts originally began an year ago, with Dr. K V Ajith Kumar as its nodal officer. The university to-date has a collection of over 400 palm leaf manuscripts cataloged in the university library.

Post flood, the first set of manuscripts were received from Mani Mambilli of Mambilli illam. Among the manuscripts

handed over to the University, Mahabharatam, Skandapuram, Narayaniyam, Vimarsini, Kumarasambavam, were some. Besides these manuscripts, the University also received rare manuscripts on Ayurvedic treatment for poison from A V Paulouse Vaidyar from Thuravoor. A V Paulose Vaidyar and Mani Mambilli officially handovered these palm leaf manuscripts to the Vice-Chancellor Dr. Dharmaraj Adat in a ceremony held in the university. Registrar Dr. T P Raveendran; K A Yusaf, Joint Registrar; V Manoj, Finance Officer in-charge; Dr. K V Ajith Kumar, Coordinator, Centre for Sanskrit Studies; Sukesh K Divakar, Assistant Registrar; P M Swathi, Public Relations Officer; K Sandhya and Shiji took part in the ceremony.
